

Dear Parents and Carers, please find attached the project web for this term for our project 'Moving On Up'. This is the document which tells you what your child will be learning in school this term and how you can support them at home. As this is our last term at Buxton Infant School the children, we are thinking about the next year and will be arranging lots of transition events in the run up to the summer holidays so please keep checking parent hub for updates on there. If you have any questions, please speak to one of the Year 2 Team 😊

Science

Our science this term is called 'Making Connections'. We will be linking all our learning from the year including materials, living things and plants. We will focus on our working scientifically skills, embedding these through topics we covered earlier in the year.

History

In our history sessions we will be learning about the history of bikes and how they have developed over time.

RE

In our RE day at the end of term we will be answering the question 'What makes some places sacred?' We will be comparing Christian churches with mosques.

Extras

Don't forget that we ask that you listen to your child **read** at least 3 times a week. As they become more fluent readers, this might be a case of asking them some questions about what they have read.

Moving On Up!

D&T

In our Design and Technology sessions we will be designing a trailer for a gardener to use. We'll be learning about the terms chassis and axle and make our own trailers to suit a gardener. You'll get to see these when we bring them home at the end of term.

Art

In our Art sessions we will be learning about textiles- in particular weaving. We will be looking closely at William Morris and designing and making our own textiles inspired by him!

PSHE

In our PSHE lessons we will be learning about the possible risks and hazards of our homes and outside and how we can keep safe in both.

Music

In our music lessons we will be looking back at the songs we have learned and performed throughout the year.

Literacy

In our literacy we will be looking at texts such as, 'Katie Morag', 'The Giraffe, the Pelly and Me' and 'Winnie the Witch' and will finish the term by writing memories from their time at Buxton Infant School.

Maths

This term we are going to be learning about statistics interpreting and making different types of graphs, including tally charts, pictograms and block diagrams. We will also be learning about position and direction.

PE

PE this term will be focussed around athletics and of course preparing for Sports Day!
